GetyourStudio

**MINI**

FOR STREAMING, WEBINARS  
& VIDEOCONFERENCING

**The MINI is the entry-level model from GetyourStudio and is suitable for anyone looking for an optimal mix between high-quality image, beautiful light, clear sound, and fast, easy installation, and operation.**

No image-disturbing shadows, or too much light, no more half heads in the picture. Thanks to the permanent setup, the Datavideo PTZ camera and the quality level of all the equipment, GetyourStudio MINI is the perfect solution to make professional video content, webinars or other content for livestreaming.

## HIGH QUALITY

The GetyourStudio MINI consists of a broadcast-quality video camera with 20x optical zoom, a dimmable LED ring, which automatically sets the light correctly, and a studio-quality lavalier microphone. The camera and the ring light are mounted on a high-end telescopic Manfrotto tripod so that everything automatically stands securely in place.

## THE CUBE

The MINI also contains the GetyourStudio CUBE, a plug-and-play device to capture uncompressed video with audio from your SDI camera, ideal for livestreaming, webinars and videoconferencing.

The GetyourStudio CUBE is a hassle-free solution to connect to (Datavideo) PTZ cameras or any other camera that supports SDI connections. It supports HD resolutions of up to 1080p50/60. The integrated audio-interface with phantom power makes it possible to connect professional-grade microphones with XLR connection.

- ▶ Plug-and-play, ideal for streaming, webinars & videoconferencing
- ▶ Video capturing device with audio interface
- ▶ To be used with SDI equipped (PTZ) cameras
- ▶ USB 3.0 interface for easy integration
- ▶ Supports up to 1080p50/60 resolution, as well as 720p

## EASY & COMPACT

Compact in size and works directly with any laptop or PC with a USB connection. Stream directly from your (PTZ) camera with SDI connection to YouTube, Facebook, LinkedIn or popular services such as Zoom, Skype, Teams, Google Meet, GotoMeeting, Webinargeek, Onlineseminar or much more.
